SWIMWEAR GUIDELINES

Eastlink Centre / Aquatera Outdoor Pool

In the interest of Public Health, Health & Safety and the cleanliness of our pool water, appropriate swimwear, made of polyester or nylon, must be worn at all times when visiting Eastlink Centre/Aquatera Outdoor Pool. Guests are not permitted to wear outdoor clothing or footwear of any kind on the pool deck.

Appropriate Swimwear

Appropriate swimwear should meet the following criteria:

- The swimwear is clean.
- The swimwear is used for the sole purpose of bathing.
- The swimwear should not impede or limit the mobility of a bather.

If swimwear appears to compromise a bather's safety in the water, the lifeguard may ask the individual to perform a swim test in order to validate that the swimwear will not reduce their swimming ability and put them at risk. Bathers with swimwear that impedes or limits mobility may be restricted from entering deep water.

Appropriate swimwear includes the following:

- Swimming trunks
- Swimming shorts (including knee length shorts e.g. board shorts)
- Swimming program/synchronised swimming costumes
- Swimdress
- Bikinis
- Tankinis
- Burkinis
- Hijoods (or other similar swimwear)

Inappropriate Swimwear

Inappropriate swimwear includes the following:

- Underwear
- Transparent costumes or thong bottoms
- Anything with obscene or offensive pictures or slogans
- Sporting wear
- Denim or cotton leggings / leotards
- Long flowing clothes
- Baggy t-shirts
- Swimwear with protruding designs or accessories that could be abrasive to other swimmers and our slides and attractions. e.g. pins, rivets, buckles, zippers, buttons, etc.
- Long necklaces, chains and jewellery should be removed.
- Regular diapers are not permitted in any pool (swim diapers are available for purchase at reception desk).
- Management reserves the right to determine whether or not swimwear is appropriate.
- Guests who do not wear appropriate attire will be asked to change.

Swimwear Damages

Please ensure your swimwear is suitable for our water disinfection chemicals and is durable for use on the slides and Flowrider. Unfortunately, due to the nature of slide riding, we cannot accept responsibility for damage to swim attire particularly if the slide rules are not followed.
