

# LOCAL TREE GUIDE

## Trees in Grande Prairie by Zone

### Zone 2

#### Black Ash

Due to an outbreak of cottony psyllid in Grande Prairie, planting this tree is not recommended.

#### Green Ash

This species is not recommended for planting due to the approach of emerald ash borer to Alberta.

#### Swedish Columnar Aspen

This tree species is not recommended for planting within the City of Grande Prairie due to the prevalence of Bronze Leaf Disease in this area.

#### Trembling Aspen

#### Cutleaf Weeping Birch

This species is not recommended for planting within the City of Grande Prairie due to an extended outbreak of Bronze Birch Borer in the area.

#### Paper Birch

This tree is not recommended for planting in Grande Prairie due to a prolonged outbreak of the Bronze Birch Borer.

#### Amur Cherry

#### Schubert Chokecherry

#### Flowering Crabapple

#### American Elm

#### Siberian Elm

#### Balsam Fir

#### Manitoba Maple

Not suitable for growth next to sidewalks or driveways due to tendency for infestation by sucking insects that excrete honeydew.

#### Jack Pine

#### Lodgepole Pine

#### Balsam Poplar

Fluffy seeds in spring can be untidy and cause allergic reactions.

#### Hybrid Poplar

#### Northwest Poplar

#### Colorado Spruce

Fluffy seeds in spring can be untidy and cause allergic reactions.

#### White Spruce

#### Laurel-leaf Willow

#### White Willow

### Zone 2 & Zone 3

#### Apple

#### Mountain Ash

### Zone 3 & Zone 3B

#### Mayday Cherry

Mayday trees are not recommended for planting in Grande Prairie due to their susceptibility to Black Knot Disease. Amur cherry is recommended as a replacement, as it is highly ornamental and resistant to Black Knot Disease.

#### Douglas Fir 3B

#### Hawthorn

#### Japanese Lilac Tree

#### Siberian Larch

#### Linden

#### Amur Maple

#### Bur Oak

#### Buckeye Ohio

All parts of this tree are poisonous. Do not consume.

#### Ponderosa Pine

#### Scots Pine

#### Swiss Stone Pine

#### Plum

#### Tower Poplar

#### Norway Spruce

#### Golden Willow
