

## Section 72 Number of Parking Stalls Required

- 72.1 Where the calculation of the required number of parking stalls or loading spaces results in a fraction number of parking spaces, the next lower number shall be taken.
- 72.2 Where a development falls within two (2) or more of the categories listed in this Section, it shall comply with all parking regulations applicable to all of the categories.
- 72.3 Parking stall requirements for uses other than those set out in this Section shall be determined by the Development Authority, having regard to similar uses for which specific parking stall requirements are set.
- 72.4 Visitor parking stalls required for residential developments shall be signed accordingly.
- 72.5 Unless otherwise allowed by the Development Authority, the number of parking stalls required for a use shall be as set forth in the following tables, where Gross Floor Area = GFA and Dwelling Unit = du.
- 72.6 For the purposes of minimum parking requirements defined in Table 72-3 - Parking Requirements for Business Related Uses, a service bay is an indoor area where motor vehicles are parked in order to be serviced. Each service bay typically has a vehicle hoist or under-body access pit.
- 72.7 For the purposes of minimum parking requirements defined in Table 72-3 - Parking Requirements for Business Related Uses, a unit is an area of a building that houses a business and is typically separated from other businesses by walls. Each unit has separate entry doors.

**Table 72-1 - Parking Requirements for Accommodation and Food Establishments**
